

1. You will be given scores by **STRICTLY** following this regulation. PS: no cheating or plagiarism will be allowed.

Attendance: 40%;

Quiz: 60%;

2. Attendance

There are 14 weeks and 28 classes in total. Except the two classes in the first week and the class on May 1, 2019 (regardless a shift on the timetable), you will have **25** classes which count into the attendance scores.

Each week, we have two classes per week, for each class, you will collect these points according to your attendance.

Each class

Name	Begin	End	Total
Student a	2	2	4
Student b			
Student c			

Each class, if you attend and stay for the entire class time, you will collect 4 points. Then, at the end of the semester, **you will have $4 \times 25 = 100$ points.**

PS: for the classes of the quiz, if you sit on the quiz, you will get 4 points;

PS: If you ask for leave, you must show proof to me (like the doctor's certificate), which can protect you from losing the points.

3. Quiz

You will be given a list of Quiz, which **MUST** be done at the class. It is **NOT** a group work. You must do it by yourselves. You can refer to any materials, including searching on the website. Yes, you can bring your laptop. And you are the most welcome to submit e-version of the quiz.

Requirements:

- You cannot discuss with each other, including discuss on wechat and etc. If I find any of you have exactly the same answer, all of the involved students will get zero point.
- You need to sit in the class to finish the quiz, just like small exams. You are not allowed take them back to finish it. You must submit it when the class finish.

The total points for the N quiz will be 100 points.

4. Total score

$$100 \times 40\% + 100 \times 60\% = 100$$
